

NO COMPANY IS MORE COMMITTED TO

# supporting operating nuclear plants.

WESTINGHOUSE ELECTRIC COMPANY LLC

Westinghouse supplied the world's first full-scale commercial nuclear power plant in 1957 in Shippingport, Pennsylvania (USA). Today, Westinghouse technology is the basis for approximately one-half of the world's operating nuclear plants, including 60 percent of those in the United States. With global pressurized water reactor (PWR) and boiling water reactor (BWR) technology and expertise, and skilled employees at locations around the world, we provide outage services and component inspections; upratings; major plant capital improvements, such as I&C systems upgrades, and other services that ensure safe and efficient nuclear plant operations.

Westinghouse is committed to helping provide safe, clean and reliable electricity.
