

Jill Redmon

**Executive Vice President, Quality, Environment,
Health & Safety**

Jill Redmon is Executive Vice President, Quality, Environment, Health & Safety at Westinghouse Electric Company. In this role, she leads Westinghouse's total commitment to safety including the company's nuclear safety, industrial safety, and quality assurance programs.

Prior to joining Westinghouse in January 2020, Ms. Redmon was Global Vice President – Seating Quality at Lear Corporation in the automotive manufacturing industry. In her role, she implemented global quality, warranty and safety initiatives, and provided the strategic direction and the operational leadership for global quality for the Fortune 500 company.

Ms. Redmon began her career at Ford Motor Company, later transitioning to Visteon Corporation. Throughout her career she has held a series of North American and global quality, health and safety leadership, and supply chain quality positions of increasing seniority. While at MANN+HUMMEL GmbH, Ms. Redmon was a member of the Management Board Extended Committee and Group Vice President, Global Quality, Health, Safety and Environment where she led the global quality and health, safety and environment strategy and initiatives. Her previous experience includes roles at Ecolab Inc. and BorgWarner Inc., during which time she focused on supply chain quality development and supplier quality assurance.

Ms. Redmon earned a bachelor's degree in mechanical engineering from Lawrence Technological University and a master's degree in manufacturing engineering from the University of Michigan. She is a member of the United Way Alexis de Tocqueville Society.
